The Owner proposes the construction of improvements and all appurtenant work necessary at locations detailed on the Contract Plans.

B 1.2 ORGANIZATION OF THE SPECIFICATIONS

ARRANGEMENT - The Specifications consist of five major parts, the Instructions to Bidders, the General Conditions, Supplementary Conditions, Division 1 - General Requirements, and the Specifications - Division 2 through 50 as applicable. In addition there will be found the Proposal, Itemized Proposal, the Consent of Surety, forms of Bonds, Contract Agreement, and Contract Drawings. Pages are numbered consecutively. Bidders shall verify completeness of Contract Documents and shall immediately notify the Engineer of any missing pages or plan sheets. Definitions may be found in sections B1.5 through B1.9, F-1 and G1.1

CONFLICTS - In case of conflicts between either the Instructions for Bidders, Supplementary Conditions, Division 1-General Requirements, or the Specifications, and the General Conditions, the former four shall always govern.

In case of conflicts between statements in the Specifications which are found in parts thereof having the same apparent merit, then the problem will be resolved by considering the Contract and its intent as a whole, and not by merely giving preference to one specific part.

In all cases of conflict the Engineer shall be sole judge and shall give the final decision.

B 1.3 SPECIAL ITEMS OF INTEREST TO BIDDERS

The following outline of special items of interest is listed below with reference to the complete specifications:

B 1.6 LIQUIDATED DAMAGES

The Contractor and the Owner recognize that delay in completion results in damage to the Owner in terms of the effect of the delay on the use of the Project, upon the public convenience and economic development of the Owner, and also results in additional cost to the Owner for Professional Fees and administration of the Contract. The parties agree that if the Contractor fails to complete the Contract within the time stated in the Specifications and Contract Documents, or within such further time as may have been granted in accordance with the provisions of the Contract, the Contractor shall pay the Owner liquidated damages in the amount of \$3,000.00/day for the above stated costs incurred. Such liquidated damages shall be paid for each and every day that he is in default on time to complete the Contract. This penalty will be deducted and retained from any payment due the Contractor.

B 1.10 VERBAL STATEMENTS NOT BINDING

B 1.11 LAYOUT SURVEY WORK BY CONTRACTOR

These Specifications provide for the furnishing of Primary Reference Points by the Owner's Design Professional. Horizontal and/or Vertical Control reference points are to be protected and maintained. Construction layout controls shall be established from the primary reference points by the Contractor's Surveyor as a cost included in the respective Bid Prices.

Note particularly the required Job Procedures.

B 1.15 MOBILIZATION TO SEVERAL WORK SITES

The work of this Contract may incorporate improvements at separate locations throughout the Municipality. All mobilization and demobilization costs, including the moving of men, materials and equipment from one improvement site to another improvement site, shall be included in the respective Bid Prices and no separate payment will be made for same.

B 1.16 NO PAYMENT FOR "DOWNTIME"

The Engineer shall have a reasonable time to inspect the site and determine the required course of action. It is the Contractor's responsibility to coordinate all utility relocation work with the affected utility company, the Owner, and the Engineer. In such a situation, the Contractor shall be entitled to an appropriate extension of time and possibly additional compensation for additional work, if any. In all cases, the Engineer shall determine if there is a "Changed Condition" and his decision shall be binding upon the Contractor and the Owner.

B 1.17 VALUE ENGINEERING

When the total price of the contract equals or exceeds \$5,000,000.00, the contractor may submit a value engineering proposal for consideration by the contracting unit, meaning a cost reduction proposal that results in savings to the contracting unit based upon a value engineering analysis, without impairing any of the essential functions or characteristics of the project or any portion of the work involved. The Contractor shall be liable for all reasonable costs associated with the technical evaluation and engineering review of the value engineering proposal by the public entity. The contracting unit shall have the sole discretion to approve or disapprove a value engineering proposal. If said value engineering proposal is approved by the contracting unit, the contractor and contracting unit shall share equally in any cost savings generated on the contract as a result of the proposal. The contractor shall have no claim against the contracting unit as a result of the contracting unit's disapproval of a value engineering proposal. A contracting unit may also develop value engineering procedures based on those established by the New Jersey Department of Transportation or any other appropriate State agency.

B 1.18 POLITICAL CONTRIBUTIONS

The Contractor shall have a continuing duty to report to the Election Law Enforcement Commission any contributions that constitute a violation of said law made during the duration of the contract.

SECTION B. INSTRUCTION TO BIDDERS**PART 2 - PREPARATION OF BID PROPOSALS****B 2.1 SUBMISSION DOCUMENTS**

B 2.2 BIDDERS RESPONSIBILITY

Before submitting his Bid, each Bidder must (a) examine the Contract Documents thoroughly, (b) visit the site to familiarize himself with the local conditions that may in any manner affect performance of the Work, (c) review the information relied upon by the Engineer in preparing the Drawings and Specifications and/or obtain any additional information deemed necessary to determine his Bid Price(s) for performance of the work, (d) familiarize himself with laws, and regulations affecting performance of the Work; and (e) carefully correlate his observations with the requirements of the Contract Documents. Neither the Owner nor the Engineer shall be liable to the successful Bidder for any claim whatsoever arising out of or in any way attributable to the failure of the successful Bidder to satisfy its obligations set forth in this section.

B 2.2.1 EXAMINATION OF CONTRACT DOCUMENTS

Bidders shall examine the Plans, Specifications and other Contract Documents and shall exercise their own judgment as to the nature and amount of the whole of the work to be done, and for the Bid Prices must assume all risk of variance, by whomsoever made, in any computation or statement of amounts or quantities necessary to complete the work in strict compliance with the Contract Documents. Neither the Owner nor the Engineer shall be liable to the successful Bidder for any claim whatsoever arising out of or in any way attributable to the failure of the successful Bidder to satisfy its obligations set forth in this section.

B 2.2.2 SITE EXAMINATION

Before submitting a Proposal, Bidders shall carefully examine the site, and fully inform themselves as to all existing conditions and limitations. Bidders shall make all necessary investigations to determine the various means of approach and access to the site, to determine the facilities and means for delivery, placing, and operating the necessary construction equipment and for delivering and handling materials at the site, and to inform themselves thoroughly as to all difficulties involved in the completion of all work under this Contract in accordance with its requirements. Neither the Owner nor the Engineer shall be liable to the successful Bidder for any claim whatsoever arising out of or in any way attributable to the failure of the successful Bidder to satisfy its obligations set forth in this section.

B 2.2.3 REFERENCE MATERIALS AND INVESTIGATIONS

Reference is made to the General Requirements (Supplemental Division 1) of the Specifications for the identification of those surveys, investigations, and reports of subsurface or latent physical conditions at the site or otherwise affecting performance of the Work which have been relied upon by the Engineer in preparing the Drawings and Specifications. Owner will make copies of such surveys and reports available to any Bidder requesting them. Before submitting his Proposal each Bidder will, at his own expense, make such additional surveys and investigations as he may deem necessary to determine his Bid Price for performance of the Work within the terms of the Contract Documents.

B 2.2.4 FAMILIARITY WITH LAWS

Before submitting his Proposal, each Bidder shall fully familiarize himself with any and all Federal and State Laws and/or local Municipal Ordinances and Regulations affecting the performance of the Work and necessary to determine his Bid Price(s).

B 2.2.5 NO PLEA OF IGNORANCE

No plea of ignorance of conditions that exist or that may hereafter exist, or of conditions or difficulties that may be encountered in the execution of the work under this Contract, as a result of failure to make the necessary examinations and investigations as required by Sections B 2.2 through B 2.2.4, will be accepted as an excuse for any failure or omission on the part of the Contractor to fulfill, in every detail, all of the requirements of the Contract Documents, or will be accepted as a basis for any claim whatsoever for extra compensation or for an extension of time.

B 2.2.6 NON COLLUSION

Each Bid submitted shall implicitly represent on the part of the Bidder that he is the only person or persons interested in said Bid; that it is made without any connection with any person submitting another Bid for the same Contract; that the Bid is in all respects fair and without collusion, fraud or mental reservation; that no official of the Owner, or any person in the employ of the said Owner is directly or indirectly interested in said Bid or in the supplies or work to which it relates, or in any portion of the profits thereof.

B 2.2.7 FEDERAL TAX AND STATE SALES TAX (WHERE APPLICABLE)

The Bidder is advised that no Federal Excise Taxes, State or local sales taxes shall be included in any Bid Prices or invoices. Exemption Certificates will be furnished upon request by the Owner.

B 2.3 ADDENDA AND INTERPRETATIONS

No interpretation of the meaning of the Contract Drawings, Specifications or other Contract Documents made to any Bidder orally are binding in any way upon Owner or Engineer. Every request for such interpretation shall be in writing, addressed to the Engineer, at the address included in the advertisement and to be given consideration must be received at least ten days prior to the date fixed for the opening of Bids. Any and all such interpretations and any supplemental instruction will be in the form of written addenda to the Specifications which, if issued, will be mailed by registered or certified mail with return receipt requested to all prospective Bidders (at the respective addresses furnished for such purposes) not later than five days prior to the date fixed for the opening of Bids. Failure of any Bidder to receive any such addendum or interpretation shall not relieve the Bidder from any obligation under his Bid as submitted. All addenda so issued shall become part of the Contract Documents. The Engineer shall not be obligated to respond to questions.

B 2.4 QUANTITIES APPROXIMATE

The Engineer's Estimate of quantities contained in the Proposal is approximate only and Bids shall be submitted upon the following express conditions, which shall apply to and become a part of every Bid received. Bidders shall satisfy themselves by personal examination of the location of the proposed work and surroundings thereof, and by such other means as they may prefer, as to the accuracy of the estimate and shall not at any time after submission of their Bids, dispute such estimate of the Engineer, nor assert that there was any misunderstanding in regard to the quantity or kind of materials to be furnished, or work to be done.

B 2.5 PROPOSAL FORMS

Proposal Forms must be completed legibly in ink or by typewriter. The Bid Price of each item on the form must be stated in words and numerals. In case of a conflict, words will take precedence over numbers, and unit prices shall take precedence over total price extensions, and the sum of individual items, including unit prices multiplied by estimated quantities, and/or individual lump sum and/or allowance amounts will take precedence over the Total Bid or Alternate Bid Price.

Any Bid which fails to name a price written both in words and figures, per unit of measurement, for each of the items for which quantities are given may be held to be irregular and may be rejected. All blank spaces in said proposal must be filled in and no change shall be made in the phraseology or in the items as contained therein.

Proposals that contain any omissions, alterations, additions or items not called for in the itemized Proposal, or that are unbalanced, conditional, incomplete or contain irregularities of any kind, may be rejected as irregular.

All names must be typed or legibly printed in ink below the signature(s).

ARTICLE 2. During the performance of this Contract, the Contractor agrees as follows:

- a. The Contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Except with respect to affectional or sexual orientation, the Contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status or sex. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.
- b. The Contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex.
- c. The Contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the Agency Contracting Officer advising the labor union or workers' representative of the Contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- d. The Contractor or subcontractor where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et sec., as amended and supplemented from time to time and the Americans with Disabilities Act.

- e. When hiring or scheduling workers in each construction trade, the Contractor or subcontractor agrees to make good faith efforts to employ minority and female workers in each construction trade consistent with the applicable employment goal prescribed by N.J.A.C. 17:27-7.3; provided, however, that the Division may, in its discretion, exempt a Contractor or subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B and C, as long as the Division is satisfied that the Contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Division, that its percentage of active "card carrying" members who are minority and female workers is equal to or greater than the applicable employment goal prescribed by N.J.A.C. 17:27-7.3.

The Contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

- (A) If the Contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the Contractor or subcontractor shall, within three business days of the Contract Award, seek assurances from the union that it will cooperate with the Contractor or subcontractor as it fulfills its affirmative action obligations under this Contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the Contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the Contractor or subcontractor agrees to attempt to hire or schedule minority and female workers directly, consistent with the applicable employment goal. If the Contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and female workers consistent with the applicable employment goal, the Contractor or subcontractor agrees to be prepared to hire minority and female workers directly, consistent with the applicable employment goal, by complying with the hiring procedures prescribed under (B) below; and the Contractor or subcontractor further agrees to take said action immediately if it determines or is so notified by the Division that the union is not referring minority and female workers consistent with the applicable employment goal.
- (B) If the hiring or scheduling of a work force consistent with the employment goal has not or cannot be achieved for each construction trade by adhering to the procedures of (A) above, or if the Contractor does not have a referral agreement or arrangement with a union for a construction trade, the Contractor or subcontractor agrees to take the following actions consistent with the applicable county employment goals:
- (1) To notify the Public Agency Compliance Officer, the Division, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its work force needs, and request referral of minority and women workers;
 - (2) To notify any minority and female workers who have been listed with it as awaiting available vacancies;
 - (3) Prior to commencement of work, to request the local construction trade union refer minority and female workers to fill job openings, provided the Contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;
 - (4) To leave standing requests for additional referral to minority and female workers with the local construction trade union, provided the Contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area until such time as the work force is consistent with the employment goal;
 - (5) If it is necessary to lay off some of the workers in a given trade on the construction site, to assure, consistent with the applicable State and Federal statutes and court decisions, that sufficient minority and female employees remain on the site consistent with the employment goal; and to employ any minority and female workers so laid off by the Contractor on any other construction site in the area on which its work force composition is not consistent with an employment goal pursuant to rules implementing N.J.S.A. 10:5-31 et. seq.;

- (6) To adhere to the following procedure when minority and female workers apply or are referred to the Contractor or subcontractor;
- (i) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the Contractor or subcontractor shall determine the qualifications of such individuals and if the Contractor's or subcontractor's work force in each construction trade is not consistent with the applicable employment goal, it shall hire or schedule those individuals who satisfy appropriate qualification standards. However, a Contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Division. If necessary, the Contractor or subcontractor shall hire minority and female workers who qualify as trainees pursuant to these rules. All of these requirements, however, are limited by the provisions of (C) below.
 - (ii) If the Contractor's or subcontractor's work force is consistent with the applicable employment goal, the name of any interested female or minority individual shall be maintained on a waiting list for the first consideration, in the event the Contractor's or subcontractor's work force is no longer consistent with the applicable employment goal.
 - (iii) If, for any reason, said Contractor or subcontractor determines that a minority individual or a female is not qualified or if the individual qualifies as an advanced trainee or apprentice, the Contractor or subcontractor shall inform the individual in writing with the reasons for the determination, maintain a copy in its files, and send a copy to the Public Agency Compliance Officer and to the Division.
- (7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the Contract, on forms made available by the Division and submitted promptly to the Division upon request.
- (C) The Contractor or subcontractor agrees that nothing contained in (B) above shall preclude the Contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and females or the failure to refer minorities and females consistent with the County employment goal, the Contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the Contractor or subcontractor shall not be required to employ female and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total work force for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the Contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and female workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the Public Agency Compliance Officer and the Division an initial project work force report (Form AA 201) provided to the public agency by the Division for distribution to and completion by the Contractor, in accordance with N.J.A.C. 17:27-7. The Contractor also agrees to submit a copy of the Monthly Project Work Force Report once a month thereafter for the duration of this contract to the Division and to the Public Agency Compliance Officer.

The Contractor agrees to cooperate with the public agency in the payment of budgeted funds, as necessary, for on-the-job and/ or off-the-job programs for outreach and training of minorities and females.

- (D) The Contractor and its subcontractors shall furnish such reports or other documents to the Division of Contract Compliance & EEO as may be requested by the office from time to time in order to carry

out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Division of Contract Compliance & EEO for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code at N.J.A.C. 17:27.
